Forbes Field
Topeka, KS 66620

RE: Pace Laboratories
2005 W. 103rd Terrace
Leawood, KS 66206

Dear Mr. Gross:

We have recently had an environmental testing performed on Pace Laboratories which proved to have favorable results. However, included in the final report, it was suggested that when Pace vacated the premises the Kansas Department of Health & Environment be notified in writing.

This letter is to let you know that Pace Laboratories last day at this location will be May 31, 1990. At that time we are requesting that a closure inspection be performed and any documentation of the findings be sent to Pathmark Development Group. Please complete this inspection at the earliest possible date so we may feel confident there were no hazardous wastes left behind and will not have any complications in re-leasing the property where this is concerned.

If you have any questions or comments do not hesitate to call. Thank you for your prompt attention to this situation.

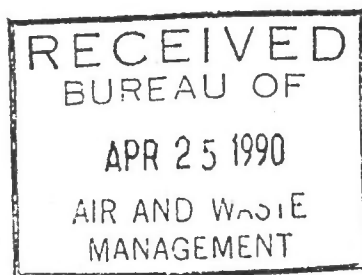

Sincerely,

Susy K. McClain
